

Killer

I'm a Killer
But no One Knows
I'm a Killer
Only fate knows

I'm a dreamer
That feeds the streets
I'm a void
That burns the needs

Pixels penetrate my eyes
Can you believe what we've become?
Reasons can't stay awake
Can you see what we've done?

I wanna kill you baby
I wanna murder you
I wanna tear you apart
I wanna erase you

I'm a lover
A lover of my truth
I'm a killer
A martyr for your love

I'm a sinner
Crashing your vacuum
I'm a murderer
A murderer of my youth

Pixels penetrate my eyes
Can you believe what we've become?
Reasons can't stay awake
Can you see what we've done

I wanna kill you baby
I wanna murder you
I wanna tear you apart
I wanna erase you

With every dream we hold on to
With every fate we're sealed into
With every pixel we've dived into
With every void we've been to . . .
