

Around the Black

I know I am fading
In your memories
I know
I know

I know I am fading
In your luxuries
I know
I know

Here with me
Dark sets itself eternally

Strange little big stars
Guide my way home
Through this misery window
Still feeling hope from above

Here around the black
I see myself and the mirror
It's here around the black
I saw your reflection within me

Here with me
Dark sets itself eternally
