

### The Trigger

I'm pulling the trigger  
The heart is the goal  
I rise myself up  
That's where I belong

Chemicals rush in  
The reasons are known  
The universe exploding  
And this is that sound

Something to see  
And something to feel  
Somewhere to go  
And somewhere to belong

The voice that you hear  
Is freedom of choice  
The sound in the streets  
I'm shouting with couse

Rising up now love  
Rising up...  
Shinin' on now love  
Shinin' on...

Your heart's beating wild  
The souls the mirror  
Stop listening those lies  
And turn the TV off

Chemicals rush in  
The reasons are known  
The universe exploding  
And this is that sound

No Warning  
No Warning

Rising up now love  
Rising up...

Shinin' on now love  
Shinin' on...

No Warning  
No Warning
